

Bridge 1

WAL-073

Bridge 1

WAL-073

DESCRIPTION

Bridge presents a unique joinery of cast-brass and blown-glass. The curves of the fixture resemble a suspension bridge, which amplify light through its form. Available with 1, 2, or 3 globes; the repetition of its elements creates rhythm and reinforce the poetic intersection of materials. Available to order in any of our metal finishes, as well as a unique Cast Brass finish (shown). Cast Brass is a natural finish revealed exclusively from the casting process when molten brass cools and forms a layer of sandy oxidation.

MATERIALS

Brass, Glass
