# Sail Floor Lamp

FLO-007

## DESCRIPTION

The Sail collection celebrates the magic of bounce-light. A small yet powerful spotlight is concealed within a cone shade. The spotlight shoots upwards, bouncing off a large brass disc which reflects a beautiful glow of soft light. Its solid-brass swivel allows for full rotation of the reflective disc. A user can adjust the light left, right, forwards, or against the wall at any moment. Sail feels expressive yet straightforward, merging our artisan craftsmanship and quality materials with a fun interactive element to create different lighting moods.

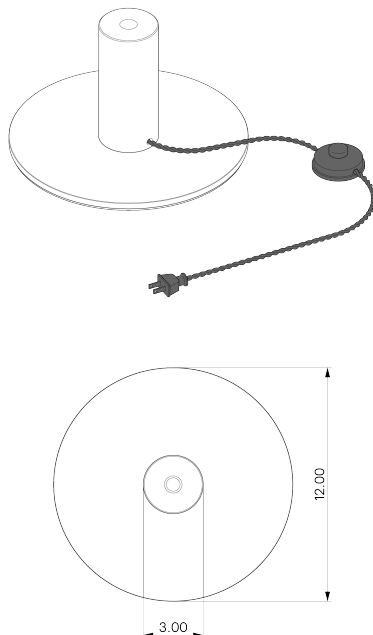

## MATERIALS

Brass

## METAL FINISHES

Available in All Standard Metal Finishes

## MOUNTING HARDWARE DIAGRAM

## LAMPING

E26 or E27 Screw Base. Type R Lamps

## BULB INCLUDED (120V USA)

Cree 14W Bulb

## BULB INCLUDED (240V EU)
